Step 1

- Keep **calm!**
- Understand the situation.
- **Emergency call 112** (and/or activate the fire alarm).
- **HSD emergency call + 49 211 4351-111.**

Step 2

- Get the first-aid box.
- Give first aid
- If the heart stops beating, use defibrillator according to instructions.

Step 3

- If need be, cardiopulmonary resuscitation (CPR) until ambulance arrives.
- Talk to the victim.
- Follow the ambulance's instructions.
- Do not block the way.

FIRST AID AND ACCIDENTS

First aid: necessary whenever someone is injured or helpless

Accident: a spontaneous event at a certain time and location, during which someone gets hurt by external influences

More information:

- on the escape route plans
- on the posters next to the first-aid box

FIRST AID AND ACCIDENTS – DEFIBRILLATOR

Only use the defibrillator if the victim

is unconscious
+ not breathing
+ has no pulse.

The defibrillator is self-explanatory.
Malfunction is impossible.

You will find a defibrillator near the main
entrance of buildings 1-6.

FIRES – CHECKLIST
